# What's Happening in Setmurthy December 2024

## Tree felling and extraction at Setmurthy is restarting

Tree felling and extraction works are restarting in Setmurthy for a short period of a couple of days. The work will clear and make safe the recent storm damage. The red shaded area of the forest will be closed to protect public safety. Please do not approach working machinery.

Falling trees are very dangerous and so are the felling and extraction machines. If a machine's saw chain breaks, metal can shoot through the forest like a bullet. Harvesting machines operate long hours including late night, early mornings and at weekends. Please, look out for timber lorries and observe all safety signs .

Thank you
